

## Don't Leave Any Holes in Your Education

### McCombs Leadership Program

Gain and validate your leadership skills by linking your classroom learning to your interests and activities. The Leadership Program helps you capitalize on your existing leadership opportunities, transforming you from a student leader to an emerging business leader. Become a better employee and a better citizen...join the Leadership Program and stand out now.

## Apply.

"The people you are surrounded by are all leaders on campus. They drive you to achieve more than you could yourself. I would recommend this program to any student that is driven, is willing to learn, and wants to become a leader. Joining this program was probably the best decision I've made since I decided to come to UT. The things I have learned I can take with me outside of the classroom and use them in real life."

*Colby Lowrey,  
Supply Chain Management Sophomore*

## Transform.

"I was first interested in the Leadership Program because it allows you to chart your own leadership curriculum by integrating all your experiences outside the classroom. However, as I have gone through the program I have found valuable knowledge in topics ranging from personal strengths to conflict mediation. Becoming a part of LP will allow you to be exposed to some of the most dedicated and inspiring student leaders."

*Andrei Coso, Finance Sophomore*

## Realize.

"Through various programs I have attended as part of the Leadership Program, I have been able to see what kind of leader I am. Not only does the Leadership Program teach us what kinds of leaders exist, the program lets us, as students, apply this knowledge to ourselves."

*Tamami Motoike, Business Freshman*

 THE UNIVERSITY OF TEXAS AT AUSTIN  
**McCOMBS SCHOOL OF BUSINESS**

## Individual.

During your first year in the LP, you begin to discover your strengths and define your values.

Explore your leadership strengths at a retreat.

Interact with a panel of leaders and learn how to communicate more effectively.

## Organizational.

Your second year is spent reflecting on your roles within a group and learning how to more effectively collaborate with others in achieving common goals.

Climb Mount Everest as a team through the Harvard Business School Everest Simulation.

Learn to manage organizational conflict.

## Institutional.

Year three encourages you to demonstrate your commitment to issues relevant to the multiple communities in which you belong.

Connect with the Austin community and actively participate in becoming a better citizen.

Complete a community service project with your peers.

## Global.

Building off your leadership skills and experiences, your final year challenges you to become an ethical global citizen by affecting positive change.

Participate in a global trip.

Learn how to become a more engaged global citizen.
